

AAYASH AHMAD BHAT

JUNIOR REACT.JS & REACT NATIVE DEVELOPER

Pulwama, Jammu & Kashmir, India | +91 7006052604 | aayash.bhat.dev@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Frontend developer with 1+ year of professional experience building production React.js web applications and React Native mobile apps. Skilled in component-based architecture, REST API integration, and Agile delivery. Delivered UI performance improvements, cross-platform features, and bug-fix cycles for a live commercial platform, working across mobile and server-rendered codebases in fast-paced sprint environments.

CORE SKILLS

React.js, React Native, JavaScript (ES6+), Redux / Context API, REST API Integration, Responsive UI Design, Component Architecture, HTML5, CSS3, Git & GitHub, Agile / Scrum, Jira, Cross-Platform Debugging, Performance Optimization

PROFESSIONAL EXPERIENCE

React JS & React Native Developer — Kupos.cl

April 2025 – Present

- Develop and maintain production React.js web applications and React Native mobile apps used by paying customers across a multi-repository codebase (mobile + server-side rendered frontend).
- Built reusable UI components and navigation flows that cut new-screen development time by an estimated 20–30% across sprints.
- Resolved 100+ UI, localization, and payment-flow bugs across multiple sprint cycles, improving release stability and reducing QA bounce-back.
- Integrated REST APIs for real-time data rendering across booking, payment, and dashboard features.
- Delivered features in 2-week Agile sprints using Jira for planning, tracking, and cross-team handoff.
- Collaborated with backend, QA, and product teams in a large, shared codebase using Git-based version control and code review.
- Contributed to measurable improvements in app responsiveness and load performance through component-level optimization.

Web Development Intern — OctaNet Services Pvt. Ltd.

December 2023 – January 2024

- Built responsive web pages using HTML, CSS, and JavaScript, translating design mockups into functional layouts.
- Identified and fixed UI/layout inconsistencies across browsers, improving visual consistency for end users.
- Assisted senior developers with frontend updates and version control workflows using Git.

KEY PROJECTS

ParkPass — Real-Time Booking Platform (React.js)

- Built a high-performance booking interface supporting real-time ticket availability and instant ticket generation.
- Designed a role-based admin dashboard with analytics views for operators to track bookings and usage.
- Planned and tracked feature delivery using Jira Agile boards across multiple sprints.

Homestays — MCA Final Year Project (React.js)

- Built a homestay listing and booking platform covering property search, listing pages, and booking flows.
- Designed an admin-style interface for property and booking management.
- Optimized responsiveness and load performance across mobile and desktop breakpoints.

CERTIFICATIONS

AI Tools & ChatGPT Workshop — be10x (July 2026)

EDUCATION

Master of Computer Applications (MCA) — Islamic University of Science and Technology

Bachelor of Computer Applications (BCA) — Degree College Pulwama, Kashmir University
